

COLLARD®

# PROFILMATIC VINE TRIMMER

## TRIMS 2 COMPLETE ROWS IN ONE PASS

*P3200X Series*

COLLARD designed the first vine trimmers and continues to be the World leader in vine trimmers. The heart of the COLLARD Trimmers is the unique lightweight aluminum alloy extrusion that provides a rugged, rustproof framework for the cutting blades. This blade framework is so strong that it has a **lifetime guarantee**. The unique saber shaped, non-clogging stainless steel blades never need sharpening. Our trimmers eliminate excess vine growth, open canopies for better air circulation and greatly improve spray and dust penetration.

This "NEW" Vine Trimmer trims two complete rows in one pass. Thus, it cuts trimming time in half versus the standard two half row trimmers. This vine trimmer has a number of unique features: mounts to tractor with Cat. 2 front mount 3-point hitch, making the trimmer stronger, easy mounting and disconnect; built in oil cooler system to prevent tractor oil overheating; parallelogram linkage to hydraulic adjust row widths; linkage system for greater visibility and will trim terraced vineyard up to 2 feet above grade.

# VINE TRIMMER 2 ROWS

## STANDARD FEATURES

- Heavy duty modular frame construction
- Vertical breakaway system to protect the trimmer and tractor
- Flow limiter for motor controls
- "State of the Art" hydraulic motors to insure long life
- Smooth, thin line blade transmission for easy movement through the foliage
- Rigid deflectors so cut material is thrown away from the operator
- Wide range of adjustments for setting trimmers to operator's exact requirements
- Strong, but lightweight and easy to operate
- Blades turn at 2200 R.P.M., ensures clean cane ends, which dry and seal neatly to reduce the risk of disease
- Machine runs smooth and quiet, with no vibration
- Equipped with electro-hydraulic joystick controls for precise trimmer adjustments
- High speed stainless steel blades, self cleaning and never need sharpening
- Hydraulic cylinders are fitted with load/hold check valves for safety in case a hose fails
- Trimmers come with all hoses, fittings & JIC couplers

## SPECIAL FEATURES

- Designed to mount on tractors with front mounted Cat. 2, 3-point hitch makes for a stronger mount and easy mounting and removing for the tractor
- Trimmer has a built in oil cooler system to prevent tractor oil overheating
- Unique parallelogram linkage to hydraulically adjust row width from 6 to 10 feet
- The new linkage system now gives total visibility
- The cutting heads will raise independently 2 feet above grade for terraced vineyards
