

SPEDO IN-RROW CULTIVATORS

IN-RROW MAINTENANCE TOOLS FOR VINEYARDS

Model M1PN0014J

Manufactured by Spedo

Very effective tools for under vine maintenance. The Rotary Hoe undercuts weeds, while at the same time loosening and turning back the soil. The tools hydraulically retract around the base of the vine without damage. The unit was developed for two side weeding, so as to operate at speeds with safe, accurate control. Also, standard is a remote control box which allows the operator to retract the tools when required. Rear mounted double tool carrier with auto retraction. Features a self contained hydraulic system and hydraulic leveling heads with double effect polaris heads. The electric controls allow the working tool retraction override, working tools power, and angle adjustment. Shown with options.

IN-ROW CULTIVATOR

FEATURES:

- Cat. II, 3-point hitch
- Double tubing main frame
- Hydraulic sliding tube to adjust for different row widths
- Sensor rod for automatic implement retraction
- Double acting hydraulic power for retraction system
- Electric control box for implement retraction when necessary
- Dual steel gauge wheels with mud scrapers and independent height control
- Dual rubber depth control wheel
- Parking stand
- For row widths 8 to 11 feet
- All required hoses are included
- Requires two tractor rear remote for width control cylinders & transport wheels
- Self contained hydraulic system, PTO driven, 450 R.P.M.
- Oil reservoir 21 gallon, 4 separate pumps, and oil cooler

- OPTIONS:**
- Rotary Hoe - 4 Blades 16" w/gauge wheel
 - Rotary Mower - 24" w/gauge wheel
 - Power Disc - 3 blade, 14" diameter
 - Back Fill Disc - 2 Blade, 14" diameter
 - 24" Long blade with comb
 - Adjustable coulter disc
 - 20" Flail Mower

Rotary Hoe - 16" Retractable

Rotary Mower - 24" Retractable

Power Disc - 3 Blades Retractable

SPECIFICATIONS:

MODEL NO:	DESCRIPTION	ROW WIDTHS	WEIGHT
